Cleanliness and Safety of Property

The members of the seventh and eighth grades Health and Safety class have been studying cleanliness and safety of school ground and property. First we divided into five groups and looked for things that were unsafe or unclean.

We found, that the play ground equipment, could use a coat of paint and the swings, teeter-totters and merry go-round should be sanded before they are painted, in fact we agree that all play ground equipment can be unsafe when not used properly. The trash pile should be cleaned away at least once a month and it also should be enclosed so the children cannot get to it. We feel that the wood pile should be cleaned so that the children may use it as part of the play ground.

The windows of the buses should be cleaned at all times and should be raised or lowered only when the bus driver permits. The floors of the buses should be kept clean and those students riding the bus should watch each other to make sure that they are clean.

Inside the building, we should act our age and not act like little juveniles. The stairs are made to walk up and down on and not to run or jump on. We should not mark on desks or walls, or throw trash on the floors.

We should remember that the school and school property are meant for our own good, therefore we should help keep it clean and safe.

ATTENTION GIRLS !!

Have you noticed the change coming about in the restrooms and first aid room? Lets all try to keep it this way. Take everything that belongs to you home. Lets make our restrooms clean and neat.

Sports

The basketball team has got off to a bad start, but the season is not over yet. If you think we are going to give up now you are crazy. We have until the sectional before we quit basketball, so we are by no means quitting in the middle of the season. It takes a few game experience to get us warmed up. But, when December or January rolls around, things should be looking different than they do now.

Our first game with Alquina was a little rough on our morale. But, with guys like Pete and Elvis, we have nothing to worry about. The Alquina team had a good starting five and a strong bench of reserves. We dropped the first game, 85 to 28. Here is the box score:

Fairview (28)		FG	FT	PF	TP

The first grade game of the season took place at the C'ville gymnasium last Friday night. The boys played good basketball, but not good enough. Alquina beat them, 44 to 27, with Donald Frye taking the top scoring honors. He scored 24 points while two boys from Alquina, Pflum and Standafer, scored 15 and 14 respectively. This is the box score:

About the Springfield game, well we weren't sitting on their home floor. They practice a lot on their floor, so naturally, they should have the edge on us. But, just you wait till we get them on Connersville's floor, and then see who's in the leading scorer's column. Naturally, we will be on top. Here is the box score for that game:

Fairview (38)		FG	FT	PF	TP

The second team started off on the wrong foot in their first game this season with a 5 to 27 loss to Springfield. The boys didn't hit too well, as they had a ball game the night before. The scoring honors went to John Peters and a boy from Springfield, both of whom had 11 points. Here is the box score:

The Orange basketball game was held in Orange's gymnasium. Right from the beginning, we seen the game was going to be rather rough. Rather rough indeed. Several of our boys fouled out and several had three or four fouls. Also, several of Orange's boys fouled out too. So, in a round-a-bout way, this new sport we invented on a basketball floor was called foot-ball. I'll bet some of the Orange players had sore elbows after that game. But, to no avail, we lost our third one in a row, 87 to 36, but Orange had a little help from the referees. (Someone told me so. Here is the box score:
